DE LA SALLE UNIVERSITY-DASMARINAS
COLLEGE OF INFORMATION AND COMPUTER STUDIES
COMPUTER SCIENCE DEPARTMENT

COURSE SYLLABUS
Second Semester, SY 2024-2025

COURSE CODE	**:**	S-ITCS226
COURSE TITLE	**:**	Information Management
COURSE TYPE	**:**	Lecture
COURSE CREDIT	**:**	Two Units
LEARNING MODALITY	**:**	Traditional Blended Learning
PRE-REQUISITES	**:**	None
CO-REQUISITES	**:**	None
PROFESSOR	**:**	Mr. Gerson T. De Ocampo
CONSULTATION HOURS	**:**	Th/1100-1200/COS100-C

CONTACT INFORMATON **:** gtdeocampo@dlsud.edu.ph
(046) 4811900 local 3134

VISION

A leading Catholic university that inspires excellence and drives innovation toward a just, peaceful, and sustainable society.

MISSION

To champion the Human and Christian Education of lifelong learners who value history and culture through responsive and inclusive academic, research, and extension programs.

COURSE DESCRIPTION:

This course prepares the students to acquire the skills of creating, analyzing, and designing databases. This will help increase their understanding of the essentials of database modeling and design, the languages and facilities provided by the database management systems, and system implementation techniques.

COURSE LEARNING OUTCOMES:

By the end of this course, students can:

CLO1. understand data models, schemas, instances, and their applications in the real world;
CLO2. design effective database schemas using Entity Relationship Diagram (ERD);
CLO3. convert conceptual model into a relational schema;
CLO4. perform effective data management procedures; and
CLO5. demonstrate 21st century skills in all learning activities.

LEARNING PLAN:

Learning Outcomes for Midterm Period

Course Learning Outcomes	Topic Learning Outcomes
CLO1. Understand data models, schemas, instances, and their applications in the real world.	TLO1. Effectively explains the basic concepts of databases and data models. TLO2. Explains the features of database management systems, the architecture of database systems, and the role of database users. TLO3. Defines the basics of the relational data model
CLO2. Design effective database schemas using Entity Relationship Diagram (ERD).	TLO4. State reasons why many system developers believe that data modeling is the most important part of the systems development process. TLO5. Write good names and definitions for entities, relationships, and attributes. TLO6. Draw an E-R diagram to represent common business situations. TLO7. Recognize when to use supertype/subtype relationships in data modeling. TLO8. Develop a supertype/subtype hierarchy for a realistic business situation. TLO9. Develop an entity cluster to simplify the presentation of an E-R diagram

Module No and Learning Outcomes	Week	Teaching-Learning Activities / Assessment Strategies	Technology Enabler	Onsite / F2F	Asynchronous	Allotted Hours
Module 0	Week 1 Jan 20-25	• Gospel Reading, Reflection, and Prayer • Discussion of Course Syllabus and Module 0: Course Introduction	Schoolbook	✓		2
Module 1 CLO1 TLO1 TLO2 TLO3	Week 2 Jan 27-Feb 1	• Gospel Reading, Reflection, and Prayer • Discussion of Module 1: The Database Environment and Development Process	Schoolbook	✓		2
	Week 3 Feb 3 - 8	• Gospel Reading, Reflection, and Prayer • Enabling Assessment, 15-Item Short Quiz about Module 1: The Database Environment and Developmental Process	Schoolbook		✓	2
Module 2 CLO2 TLO4 TLO5 TLO6	Week 4 Feb 10-15	• Gospel Reading, Reflection, and Prayer • Discussion of Module 2: Modeling Data in the Organization	Schoolbook	✓		2

	Week 5 Feb 17-22	• Gospel Reading, Reflection, and Prayer • Enabling Assessment, 10-Item Seatwork about Module 2: Modeling Data in the Organization	Schoolbook		✓	2
Module 3 CLO2 TLO7 TLO8 TLO9	Week 6 Feb 24-Mar 1	• Gospel Reading, Reflection, and Prayer • Discussion of Module 3: The Enhanced ER Model	Schoolbook		✓	2
	Week 7 Mar 3-8	• Gospel Reading, Reflection, and Prayer • Enabling Assessment, 50-Item Long Quiz about Modules 1 – 3	Schoolbook	✓		2
Module 3 CLO2 TLO7 TLO8 TLO9	Week 8 Mar 10-15	• Gospel Reading, Reflection, and Prayer • Continuation of Discussion in Module 3: The Enhanced ER Model			✓	2
Midterm Exam	Week 9 Mar 17-22	• Gospel Reading, Reflection, and Prayer • Midterm Summative Assessment on Module 1 - 3		✓		2
TOTAL				10	8	18

Learning Outcomes for Final Period

Course Learning Outcomes	Topic Learning Outcomes
CLO3. Convert conceptual model into a relational schema.	TLO10. List properties of relations TLO11. Transform an E-R (or EER) diagram into a logically equivalent set of relations 5 TLO12. Create relational tables that incorporate entity integrity and referential integrity constraints
CLO4. Perform effective data management procedures.	TLO13. Demonstrate how relations can be normalized up to 3rd normal form. TLO14. Explains Functional Dependency and Functional Decomposition. TLO15.Applies various Normalization techniques for database design improvement.
CLO6.Demonstrate 21st century skills in all learning activities.	*Collaboration, Skilled Communication, Knowledge Construction, Self- Regulation, Real-world Problem-Solving, Use of ICT (not part of topic, but integrated in assessments)*

Module No and Learning Outcomes	**Week**	**Teaching-Learning Activities / Assessment Strategies**	**Technology Enabler**	**Onsite / F2F**	**Asynchronous**	**Allotted Hours**
Module 4 CLO3 TLO10	Week 10 Mar 24-29	• Gospel Reading, Reflection, and Prayer • Discussion of Module 4: Relational Model • Completion Week • **Sustainability Week**	Schoolbook	✓		2
	Week 11 Mar 31-Apr 5	• Gospel Reading, Reflection, and Prayer	Schoolbook		✓	

		• Enabling Assessment, 15-Item Short Quiz about Module 4: Relational Model	Schoolbook			2
	Week 12 Apr 7-12	• Gospel Reading, Reflection, and Prayer • Continuation of Discussion in Module 4: Relational Model	Schoolbook	✓		2
	Week 13 Apr 14-19	***Independent Learning Days (April 14-15)*** ***Holy Week (April 16-19)***			✓	2
	Week 14 Apr 21-26	***Research Week***			✓	2
Module 5 CLO3 TLO11 TLO12	Week 15 Apr 28-May 3	• Gospel Reading, Reflection, and Prayer • Discussion of Module 5: Logical Database Design • Enabling Assessment, 10-Item Seatwork about Module 5: Logical Database Design		✓		2
Module 6 CLO4 TLO13 TLO14 TLO15	Week 16 May 5-10	• Gospel Reading, Reflection, and Prayer • Discussion of Module 6: Normalization • Enabling Assessment, 10-Item Seatwork about Module 6: Normalization	Schoolbook	✓		2

	Week 17 May 12-17	• Gospel Reading, Reflection, and Prayer • Requirements Completion			✓	2
Final Exam	Week 18 May 19-24	• Gospel Reading, Reflection, and Prayer • Final Term Summative Assessment on Modules 4-6		✓		2
TOTAL				10	8	18

GRADING SYSTEM:

Midterm	%	Final	%
Enabling Assessments	50%	Enabling Assessments	50%
Summative Assessment	30%	Summative Assessment	30%
Class Participation	20%	Class Participation	20%
	100%		100%

FINAL GRADE = $\frac{\text{Midterm Grade + Final Grade}}{2}$

COURSE POLICIES AND REQUIREMENTS:

1. This course follows the Traditional Blended Learning Mode. There will be 50% onsite and 50% asynchronous.

2. Enrollment in an E-Class. The Center for Innovative Learning Programs (CILP) shall enroll you in the e-class. This will be based on the class list provided by the Office of the University Registrar and at the portal.

3. Communication and Feedback
   a. Onsite classes shall happen as indicated in the learning plan section of the syllabus. Fifty percent (50%) of the weekly classes is delivered face-to-face while the remaining is asynchronous.
   b. Online Asynchronous Communication shall happen when the faculty utilizes at least one of the recommended asynchronous communications. The minimum response time for asynchronous communication is 48 hours, excluding Sundays and holidays. All communication platforms must be explicitly indicated in the syllabus. Below are the recommended asynchronous communication platforms:

i. Forum – at the Forum Tab at Schoolbook, students can post their general concerns. The forum is public, and any post can be seen by the class.
ii. Messaging – at Schoolbook. Any private or confidential matters may be messaged through the Schoolbook messaging feature.
iii. Email – you may email your professor. (Professor's email will be given during the course orientation)

c. No use of foul, curse, and other bad words, whether written or verbal. No shouting. No flooding of chat and messages. No selling.

4. Attendance Policy
   a. Attendance Policy for Onsite Classes is scheduled based on the learning plan. A maximum of 20% for class participation/recitation/attendance shall be allotted for the student's grade.
   b. The onsite meeting will only be held at the schedule indicated in the registration form.
   c. Students are required to attend onsite classes, 40% of absence (from onsite classes) for the entire semester means 0.0 final grade.

5. Intellectual Property Policy
   a. Policy and copyright infringement will not be tolerated. Any violation of such will earn students a grade of zero in the assessment.
   b. Using any illegally obtained software is strictly prohibited.
   c. Students are encouraged to use their original photos, videos, and other resources. Otherwise, students can use royalty-free resources or embed the sources in their submissions to avoid copyright infringement and/or plagiarism.
   d. Giving passwords to Schoolbook and Office 365 is strictly prohibited. Likewise, accessing Schoolbook and Office 365 accounts other than the students' personal account is also strictly prohibited. Violating students will be reported to the Student Welfare and Formation Office (SWAFO).

6. Other Policies
   a. Attire - students must wear decent casual or smart-casual attire prescribed by the Student Handbook.
   b. Students must be honest at all times; cheating and plagiarism in any form will merit a grade of 0.00.
   c. Cellular/Mobile phones should always be in silent mode during class hours; the use of cellular phones is prohibited in class unless special permission is sought. Cellular phones cannot also be used as calculators during examinations.
   d. Any complaints against the teacher or against classmates should be properly addressed to the subject teacher for appropriate action. Students may seek the help and guidance of their academic/registration adviser in resolving the issue with the subject teacher when such mediation is needed.
