DE LA SALLE UNIVERSITY-DASMARINAS
COLLEGE OF INFORMATION AND COMPUTER STUDIES
INFORMATION TECHNOLOGY DEPARTMENT
COURSE SYLLABUS

COURSE CODE	**:**	S-ITCS125LA
COURSE TITLE	**:**	Human-Computer Interaction
COURSE TYPE	**:**	Laboratory
COURSE CREDIT	**:**	1.0 Unit
LEARNING MODALITY	**:**	Fully Onsite
PRE-REQUISITES	**:**	ITCS123LA
CO-REQUISITES	**:**	S-ITCS125 LEC
PROFESSOR	**:**	Emelyn D. Mayuga
CONSULTATION HOURS	**:**	Monday 8:00-12:00 MS Teams / 1:00-4:00 COS100-†C Tuesday 2:30-5:30 MS Teams edmayuga@dlsud.edu.ph (046) 4811900 local 3134

VISION

A leading Catholic university that inspires excellence and drives innovation towards a just, peaceful, and sustainable society.

MISSION

To champion the Human and Christian Education of lifelong learners who value history and culture through responsive and inclusive academic, research, and extension program.

COURSE DESCRIPTION:

The course is about understanding what it means to be a user of a computer and, therefore, how to create related products and services that work seamlessly. This course provides a comprehensive introduction and deep dive into HCI, so students can create designs that provide outstanding user experiences. This course

provides a deep understanding of what it means to be a user and how to implement user-centered design for the best possible results.

COURSE LEARNING OUTCOMES:

By the end of this course, students are expected to:

CLO1. Develop an understanding of the basic concepts about the relevance of human and computer interaction, including their abilities and limitations, and how these principles apply to using Figma effectively.

CLO2. Analyze different concepts concerning effective and usable graphical computer interfaces, and apply these concepts in designing user interfaces using Figma.

CLO3. Formulate different techniques and concepts of human-computer interaction in creating interface designs for computer/IT applications using Figma's prototyping tools.

CLO4. Apply a variety of simple methods for evaluating the quality of a user interface, including collaborative review and feedback processes within Figma.

CLO5. Evaluate the methods and techniques used in design for usability requirements, ensuring that designs created in Figma are responsive and meet diverse user needs.

CLO6. Cultivate essential 21st-century skills such as critical thinking, creativity, collaboration, and communication through the practical application of Figma in design projects.

LEARNING PLAN

Learning Outcomes for Midterm Period

Course Learning Outcomes	**Topic Learning Outcomes**
CLO1. Understand the basic concepts about the relevance of human and computer interaction, including their abilities and limitations.	TLO1. Describe what interaction design and how it relates to human –computer interaction and other fields. TLO2. Discuss the use of interface metaphors and interaction types as part of a conceptual model. TLO3. Show the difference between classic internal cognitive frameworks and more recent external cognitive approaches that have been applied in HCI.

CLO2. Classify different concepts concerning effective and usable graphical computer interfaces.	TLO4. Identify the interaction design process. Discuss the different kinds of interfaces. TLO5. Discuss how to plan and run a successful data gathering program. TL06. Explain some advantages of involving users in development. TL07. Analyze data gathered from questionnaires, interviews and observations. TLO8. Understand the essential characteristics of good design

Module No and Learning Outcomes	**Week**	**Teaching-Learning Activities / Assessment Strategy**	**Technology Enabler**	**Onsite**	**Allotted Hours**
Module 0	1 (Aug 19-Aug 24)	**Gospel** **Teacher Introduction** **Presentation of course introduction** **Discussion of Syllabus** **Discussion of the Figma Interface/Account creation**	Schoolbook, Figma	/	3
Module 1 TLO1 CLO1	2-3 (Aug 26-Sep 7)	**Gospel** **Introduction to Figma** **Understanding and Conceptualizing Interaction** **Enabling Assessment:** *Application of HCI Lecture Concepts to FIGMA by designing an App Screen (Guided Laboratory Activity)*	Schoolbook, Figma	/	6
Module 2 CLO2 TLO1 TLO2 TLO3	4 (Sep 9-Sep 14)	**Gospel** **Understanding and Conceptualizing Interaction Continued** **Enabling Assessment:** *Create a Logo and Icon Set*	Schoolbook, Figma	/	3
Module 3 CLO2 TLO4 TLO5 TLO6	5 (Sep 16-Sep 21)	**Gospel** **Interaction Design** **Enabling Assessment:** *Design the next two App Screens*	Schoolbook, Figma	/	3

Module 4 CLO2 TLO7 TLO8	6-7 (Sep 23- Oct 5)	**Gospel** **Interaction Design** **Enabling Assessment:** *Add Interaction to the Created by using Prototyping*	Schoolbook, Figma	/	6
	8 (Oct 7- Oct 12)	**Gospel** **Interaction Design** **Enabling Assessment:** *Create a tablet or desktop version*	Schoolbook Figma	/	3
Modules 1-4	*9 (Oct 14-Oct 19)*	*Summative assessment*			
			TOTAL	***24***	***24***

Learning Outcomes for Final Period

Course Learning Outcomes	Topic Learning Outcomes
CLO3. Use different techniques and concepts of the human computer interaction in creating interface design for computer/IT applications.	TLO9. Discuss how to plan and run a successful data gathering program. TLO10. Explain some advantages of involving users in development. TLO11. Analyze data gathered from questionnaires, interviews and observations. TLO12.Understand the essential characteristics of good design
CLO4. Apply a variety of simple methods for evaluating the quality of a user interface.	TLO13. Describe prototyping and different types of prototyping activities. TLO14. Explain how to do usability testing. TLO15. Explain how do heuristic evaluation and walkthroughs.
CLO5. Evaluate the methods and techniques used in design for usability requirements.	TLO16. Evaluate design and usability techniques.

Module No and Learning Outcomes	Week	Teaching-Learning Activities / Assessment Strategy	Technology Enabler	Onsite	Allotted Hours

Module 5 CLO 3 TLO9 TLO10	10 (Oct 21- Oct 26)	**Gospel** **Constructing Flexible Layouts** **Enabling Assessment:** *Use auto layout to set up and manage flow direction, alignment, and padding. Make layouts that adapt to their contents and containers by using intrinsic widths and heights.*	Schoolbook, Figma	/	3
	11 (Oct 28- Nov 2)	*I*ndependent Learning Week			3
Module 6 CLO3, TLO10, CLO4, TLO11 - TLO13	12-13 (Nov 4- Nov 16)	**Gospel** **Building Complex and Versatile Components** **Enabling Assessment:** *Establish icon systems for better integration across your component library. Build robust components for UI elements like buttons and tags with straightforward properties for easy reuse.* *Continue to build components and expand your library into a more comprehensive and robust system. Explore the pros and cons of various approaches to building components like tables and data grids.*	Schoolbook, Figma	/	6
Module 7 CLO3, TLO10, CLO4, TLO11 - TLO13	14 (Nov 18- Nov 23)	**Gospel** **Creating Design Tokens with Variables** **Enabling Assessment:** *Build color palettes that differentiate between base color values, semantic colors, and component-specific colors. Establish flexible and expressive systems for typographic styles to use throughout your designs, across platforms and channels.*	Schoolbook, Figma	/	3

Module 8 CLO4, TLO12, TLO14, CLO4, TLO11 - TLO13,	15 (Nov 25-Nov 30)	**Gospel** **Project Making for Final Output**	Schoolbook, Figma	/	3
Module 9 CLO3, CLO4, CLO5, TLO7TLO17	16 (De 2-Dec 7)	**Gospel** **Finalization of Final Output**	Schoolbook, Figma	/	3
Module 5-10	*17 (Dec 9-Dec 14)*	*Presentation of Final Output / Summative Exam Equivalent*	*Schoolbook*	/	3
			TOTAL	***24***	***24***

GRADING SYSTEM

Midterm

Enabling Assessments	40%
Summative Assessments	60%
	100%

Finals

Enabling Assessments	40%
Summative Assessments	60%
	100%

Overall Final Grade = Midterm + Final
2

COURSE POLICIES AND REQUIREMENTS:

1. This course follows the Onsite Learning Mode. All activities will be done in the laboratory classroom and field.

2. Enrollment in an E-Class. The Center for Innovative Learning Programs (CILP) shall enroll you in the e-class. This will be based on the class list provided by the Office of the University Registrar.

3. Laboratory Policies
    a. Students must be honest at all times; cheating and plagiarism in any form will merit a grade of 0.00.

b. Cellular/Mobile phones should always be in silent mode during class hours; the use of cellular phones is prohibited in class unless a special permission is sought. Cellular phones also cannot be used as calculator during examination.
d. Any complaints against the teacher or against classmates should be properly addressed to the subject teacher for appropriate action. Students may seek the help and guidance of their academic/registration adviser in resolving the issue with the subject teacher when such mediation is needed.

4. Communication and Feedback
    a. Online Asynchronous Communication shall happen when the faculty utilizes at least one of the recommended asynchronous communications. The minimum response time for asynchronous communication is 48 hours, excluding Sundays and holidays. All communication platforms must be explicitly indicated in the syllabus. Below are the recommended asynchronous communication platforms:
        i. Forum – at the Forum Tab at Schoolbook, students can post their general concerns. The forum is public, and any post can be seen by the class.
        ii. Messaging – at Schoolbook. Any private or confidential matters may be messaged through Schoolbook messaging feature.
        iii. Email – you may email your professor. (Professor's email will be given during the course orientation)
    b. No use of foul, curse, and other bad words, whether in written or verbal. No shouting. No flooding of chat and messages. No selling.

5. Attendance Policy
    a. Attendance Policy for Onsite Classes is scheduled based on the learning plan.
    b. The onsite meeting will only be held at the schedule indicated in the registration form.
    c. Students are required to attend onsite classes, 40% of absence (from onsite classes) for the entire semester means 0.0 final grade.

6. Intellectual Property Policy
    a. Policy and copyright infringement will not be tolerated. Any violation of such will earn students a grade of zero in the assessment.
    b. Using any illegally obtained software is strictly prohibited.
    c. Students are encouraged to use their original photos, videos, and other resources. Otherwise, students can use royalty-free resources or embed the sources in their submissions to avoid copyright infringement and/or plagiarism.
    d. Giving of password to Schoolbook and Office 365 is strictly prohibited. Likewise, accessing Schoolbook and Office 365 account other than the students' personal account is also strictly prohibited. Violating students will be reported to the Student Welfare and Formation Office (SWAFO).

7. Other Policies
    a. Attire - students must wear decent casual or smart-casual attire prescribed by the Student Handbook.
