DE LA SALLE UNIVERSITY-DASMARINAS
COLLEGE OF INFORMATION AND COMPUTER STUDIES
INFORMATION TECHNOLOGY DEPARTMENT
COURSE SYLLABUS

COURSE CODE	**:**	S-ITCS125
COURSE TITLE	**:**	Human Computer Interaction
COURSE TYPE	**:**	Lecture
COURSE CREDIT	**:**	2.0 Units
LEARNING MODALITY	**:**	Traditional Blended Learning Model
PRE-REQUISITES	**:**	S-ITCS123 and S-ITCS123LA
CO-REQUISITES	**:**	ITCS125Lab
PROFESSOR	**:**	Emelyn D. Mayuga
CONSULTATION HOURS	**:**	Monday 8:00-12:00 MS Teams / 1:00-4:00 COS100-†C Tuesday 2:30-5:30 MS Teams
		edmayuga@dlsud.edu.ph (046) 4811900 local 3134

VISION

A leading Catholic university that inspires excellence and drives innovation towards a just, peaceful, and sustainable society.

MISSION

To champion the Human and Christian Education of lifelong learners who value history and culture through responsive and inclusive academic, research, and extension program.

COURSE DESCRIPTION:

The course is about understanding what it means to be a user of a computer and, therefore, how to create related products and services that work seamlessly. This course provides a comprehensive introduction and deep dive into HCI, so students can create designs that provide outstanding user experiences. This course provides a deep understanding of what it means to be a user and how to implement user-centered design for the best possible results.

COURSE LEARNING OUTCOMES:

By the end of this course, students can:

CLO1. Develop an understanding of the basic concepts about the relevance of human and computer interaction, including their abilities and limitations, and how these principles apply to using Figma effectively.

CLO2. Analyze different concepts concerning effective and usable graphical computer interfaces, and apply these concepts in designing user interfaces using Figma.

CLO3. Formulate different techniques and concepts of human-computer interaction in creating interface designs for computer/IT applications using Figma's prototyping tools.

CLO4. Apply a variety of simple methods for evaluating the quality of a user interface, including collaborative review and feedback processes within Figma.

CLO5. Evaluate the methods and techniques used in design for usability requirements, ensuring that designs created in Figma are responsive and meet diverse user needs.

CLO6. Cultivate essential 21st-century skills such as critical thinking, creativity, collaboration, and communication through the practical application of Figma in design projects.

LEARNING PLAN :

Learning Outcomes for Midterm Period

Course Learning Outcomes	**Topic Learning Outcomes**

CLO1. Develop an understanding of the basic concepts about the relevance of human and computer interaction, including their abilities and limitations, and how these principles apply to using Figma effectively.	TLO1. Describe what interaction design and how it relates to human –computer interaction and other fields. TLO2. Discuss the use of interface metaphors and interaction types as part of a conceptual model. TLO3. Show the difference between classic internal cognitive frameworks and more recent external cognitive approaches that have been applied in HCI
CLO2. Analyze different concepts concerning effective and usable graphical computer interfaces, and apply these concepts in designing user interfaces using Figma.	TLO4. Identify the interaction design process. Discuss the different kinds of interfaces. TLO5. Discuss how to plan and run a successful data gathering program. TL06. Explain some advantages of involving users in development. TL07. Analyze data gathered from questionnaires, interviews and observations. TLO8. Understand the essential characteristics of good design
CLO3. Use different techniques and concepts of the human computer interaction in creating interface design for computer/IT applications.	TLO9. Discuss how to plan and run a successful data gathering program. TLO10. Explain some advantages of involving users in development. TLO11. Analyze data gathered from questionnaires, interviews and observations. TLO12.Understand the essential characteristics of good design

Module No and Learning Outcomes	**Week**	**Teaching-Learning Activities / Assessment Strategy**	**Technology Enabler**	**Face-to-face**	**Asynchronous**	**Allotted Hours**
Module 0	1 (Aug 19-Aug 24)	**Gospel Reading, Reflection, and Prayer** **Teacher Introduction** **Presentation of course introduction** **Discussion of Syllabus**	SchoolBook, PowerPoint	/		2

Module 1 TLO1 CLO1	2 (Aug 26-Aug 31)	**Gospel Reading, Reflection, and Prayer** **Discussion of the Human and Computer Interaction Concepts** **Enabling Assessment 1:** *SQ About the discussed topic (HCI Concepts)*	SchoolBook, PowerPoint	/		2
Module 2 CLO2 TLO1 TLO2 TLO3	3 (Sep 2 – Sep 7)	**Gospel Reading, Reflection, and Prayer** **Discussion about Understanding and Conceptualizing Interaction** **Enabling Assessment 2:** *Group Work about the Double Diamond of Design (Redesigning for the Ageing Population Activity)*	SchoolBook, PowerPoint	/		2
	4 (Sep 9-Sep 14)	**Gospel Reading, Reflection, and Prayer** **Enabling Assessment 2:** *Group Work about the Double Diamond of Design (Redesigning for the Ageing Population Activity)*	SchoolBook, PowerPoint		/	2
Module 3 CLO3, TLO4, TLO5, CLO4, TLO11 - TLO13	5 (Sep 16-Sep 21)	**Gospel Reading, Reflection, and Prayer** **Discussion about Understanding Users – Cognitive aspects** **Enabling Assessment 3:** SQ about Cognitive Aspects	SchoolBook, PowerPoint		/	2
Module 4 CLO2 TLO7 TLO8	6 (Sep 23-Sep 28)	**Gospel Reading, Reflection, and Prayer** **Discussion of Interaction Design Basics / Design Rules and Prototyping**	PowerPoint Schoolbook	/		2
	7 (Sep 30-Oct 5)	**Gospel Reading, Reflection, and Prayer** **Enabling Assessment 4:** (Showcase per group the Double Diamond Design (Context: The Ageing Population Activity)	SchoolBook		/	2

	8 (Oct 7-12)	**Gospel Reading, Reflection, and Prayer** **Continue Class Activity about Interaction Design in Practice** **Enabling Assessment 5:** *Continuation of the Presentation per group*	PowerPoint Schoolbook		/	2
Modules 1-4	*9 (Oct 14-Oct 19)*	*Midterm Summative assessment*		/		2
			TOTAL	***10***	***8***	***18***

Learning Outcomes for Final Period

Course Learning Outcomes	Topic Learning Outcomes
CLO4. Apply a variety of simple methods for evaluating the quality of a user interface, including collaborative review and feedback processes within Figma.	TLO13. Describe prototyping and different types of prototyping activities. TLO14. Explain how to do usability testing. TLO15. Explain how do heuristic evaluation and walkthroughs.
CLO5. Evaluate the methods and techniques used in design for usability requirements, ensuring that designs created in Figma are responsive and meet diverse user needs.	TLO16. Identify key usability requirements for diverse user groups and analyze how these requirements influence design decisions. TLO17. Demonstrate the ability to use Figma to create responsive designs that meet specific usability requirements, ensuring accessibility and user-friendliness. TLO18. Evaluate design solutions for usability, gather user feedback, and iteratively improve their designs to better meet the needs of diverse users.
CLO6. Cultivate essential 21st-century skills such as critical thinking, creativity, collaboration, and communication through the practical application of Figma in design projects.	TLO19. Students will develop essential 21st-century skills by using Figma in design projects, focusing on critical thinking and creativity to solve design problems and generate innovative solutions. Additionally, they will enhance their collaboration and communication abilities through effective teamwork and clear presentation of design ideas, utilizing Figma's collaborative features to improve their overall design process.

Module No and Learning Outcomes	Week	Teaching-Learning Activities / Assessment Strategy	Technology Enabler	Face-to-face	Asynchronous	Allotted Hours
Module 5 CLO 3 TLO9 TLO10 Module 5	10 (Oct 21- Oct 26)	**Gospel Reading, Reflection, and Prayer** **Discussion about Requirements Gathering and Analysis** **Enabling Assessment 6:** *SQ about Requirements Gathering and Analysis*	Schoolbook, PowerPoint	/		2
	11 (Oct 28- Nov 2)	***Independent Learning Week***			/	2
Module 6 CLO3 CLO4 TLO10 TLO11 TLO12 TLO13	12 (Nov 4- Nov 9)	**Gospel Reading, Reflection, and Prayer** **Discussion about Introduction to Evaluation** **Enabling Assessment 8:** *Seatwork about Evaluation*	Schoolbook, PowerPoint	/		2
Module 7 CLO3, CLO4 TLO10 TLO11 TLO12 TLO13	13 (Nov 11- Nov 16)	**Gospel Reading, Reflection, and Prayer** **Continuation of discussion on Evaluation** **Enabling Assessment 9:** *Evaluation Case Studies*	Schoolbook, PowerPoint	/		2:

Module 8 CLO3 CLO4 TLO9 TLO10 TLO11 TLO12 TLO13	14 (Nov 18- Nov 23)	**Gospel Reading, Reflection, and Prayer** **Discussion of the Final Project, Grouping Details and Content** **Enabling Assessment: Overview of the Final Project, Web Design Project**	Schoolbook, PowerPoint	/		2
Module 9 CLO3 CLO4 TLO12 TLO14 TLO11 TLO12 TLO13	15 (Nov 25- Nov 30)	**Gospel Reading, Reflection, and Prayer** **Asynchronous Consultation about the Project**	Schoolbook, PowerPoint		/	2
Module 10 CLO3 CLO4 CLO5 CLO6 TLO7 TLO8- TLO19	16 (Dec 2- Dec 7)	**Gospel Reading, Reflection, and Prayer** **Enabling Assessment 10:** *Presentation of Final Output*	Schoolbook, PowerPoint	/		2
Module 5-10	*17* *(Dec 12-* *Dec 14)*	Review, Consultation, Final Exam	*Schoolbook*		*/*	2
	18 *(Dec 16-* *Dec 18)*	*Finals Summative Exam*	*Classroom*	*/*		2
			TOTAL	***12***	***6***	***18***

GRADING SYSTEM:

Midterm	%	Final	%
Enabling Assessments	50%	Enabling Assessments	50%
Summative Assessment	30%	Summative Assessment	30%

Class Participation	20%	Class Participation	20%
	100%		100%

FINAL GRADE = $\frac{\text{Midterm Grade + Final Grade}}{2}$

COURSE POLICIES AND REQUIREMENTS

1. This course follows the Traditional Blended Learning Mode. There will be 50% onsite and 50% asynchronous.

2. Enrollment in an E-Class. The Center for Innovative Learning Programs (CILP) shall enroll you in the e-class. This will be based on the class list provided by the Office of the University Registrar and at the portal.

3. Communication and Feedback
    a. Onsite classes shall happen as indicated in the learning plan section of the syllabus. Fifty percent (50%) of the weekly classes is delivered face-to-face while the remaining is asynchronous.
    b. Online Asynchronous Communication shall happen when the faculty utilizes at least one of the recommended asynchronous communications. The minimum response time for asynchronous communication is 48 hours, excluding Sundays and holidays. All communication platforms must be explicitly indicated in the syllabus. Below are the recommended asynchronous communication platforms:
        i. Forum – at the Forum Tab at Schoolbook, students can post their general concerns. The forum is public, and any post can be seen by the class.
        ii. Messaging – at Schoolbook. Any private or confidential matters may be messaged through the Schoolbook messaging feature.
        iii. Email – you may email your professor. (Professor's email will be given during the course orientation)
    c. No use of foul, curse, and other bad words, whether written or verbal. No shouting. No flooding of chat and messages. No selling.

4. Attendance Policy
    a. Attendance Policy for Onsite Classes is scheduled based on the learning plan. A maximum of 20% for class participation/recitation/attendance shall be allotted for the student's grade.
    b. The onsite meeting will only be held at the schedule indicated in the registration form.
    c. Students are required to attend onsite classes, 40% of absence (from onsite classes) for the entire semester means 0.0 final grade.

5. Intellectual Property Policy
    a. Policy and copyright infringement will not be tolerated. Any violation of such will earn students a grade of zero in the assessment.
    b. Using any illegally obtained software is strictly prohibited.
    c. Students are encouraged to use their original photos, videos, and other resources. Otherwise, students can use royalty-free resources or embed the sources in their submissions to avoid copyright infringement and/or plagiarism.

d. Giving of passwords to Schoolbook and Office 365 is strictly prohibited. Likewise, accessing Schoolbook and Office 365 accounts other than the students' personal account is also strictly prohibited. Violating students will be reported to the Student Welfare and Formation Office (SWAFO).

6. Other Policies
    a. Attire - students must wear decent casual or smart-casual attire prescribed by the Student Handbook.
    b. Students must be honest at all times; cheating and plagiarism in any form will merit a grade of 0.00.
    c. Cellular/Mobile phones should always be in silent mode during class hours; the use of cellular phones is prohibited in class unless special permission is sought. Cellular phones cannot also be used as calculators during examination.
    d. Any complaints against the teacher or against classmates should be properly addressed to the subject teacher for appropriate action. Students may seek the help and guidance of their academic/registration adviser in resolving the issue with the subject teacher when such mediation is needed.
