CHECKLIST OF COMPLIANCE WITH THE SYLLABUS PARTS AND FORMAT

Course Code and Title**: S- ITCS318LA- INFORMATION ASSURANCE AND SECURITY [LABORATORY]**

This undertaking has a two-fold objective. First, it allows the syllabus designers to review their output systematically. Based on their honest evaluation, they could make the necessary revision. Second, it expedites the checking to be done by the Dept. Syllabus Committee Reviewer, Department Chair, the College Dean, and the Institutional Syllabus Reviewers.

DIRECTIONS: Review the latest version of the syllabus that you submitted to the Department Chair for his/her scrutiny. As you do your reflective review, as you do your reflective review, assess your compliance with the syllabus parts and format by answering each of the items that follow. Shade the corresponding box (complied with, not complied with) under the compliance column.

Format, parts, and description	Compliance	
	Complied With	Not Complied With
Format		
1. The 2023-2024 syllabus format is used.	/	
2. The font used in the syllabus preparation is Times New Roman (11).	/	
3. DLSUD (being first) and college logos are beside each other at the top (center).	/	
4. Preliminaries include all the contact details of the professor, such as the day and time.	/	
5. Each WEEK has a corresponding date.	/	
Content		
6. The Learning Outcomes have more HOTS than LOTS.	/	
7. CLOs and TLOs are identified for each module/lesson/topic.	/	
8. Gospel reading and Reflection and reflection precede the presentation of each topic under the teaching-learning activities.	/	
9. The journal articles/references are within the last five years.	/	
10. Some materials are beyond the five-year rule because these are considered cannon and seminal studies.	/	
11. The course policies and requirements section of the syllabus is a clear provision for addressing the concerns and grievances of students.	/	
Assessments		
12. At least three and a maximum of five Enabling Assessments per term are reflected in the syllabus.	/	
13. Formative Assessments are not reflected anymore in the syllabus.	/	
14. Enabling Assessments are briefly described and aligned with the learning outcomes and teaching-learning activities.	/	
15. The syllabus presents one-module(lesson)-one-assessment correspondence.	/	
16. Only one Enabling Assessment is reflected in a given week	/	
17. The Enabling Assessments are aligned with the identified CLOs and TLOs.	/	
18. Enabling Assessments, Class Participation, and Summative Assessments constitute the breakdown of grades per term.	/	
19. Thirty percent (30%) is allotted for Summative Assessments per term.	/	

20. Twenty percent (20%) is allotted for Class Participation/Attendance per term.	/	
21. The percentage that is allocated for Enabling Assessments fairly corresponds to their quantity, depth, breadth, and level of difficulty compared to the other components of the Midterm Grade and Final Grade.	/	

22. Summative Assessments are aligned with the identified CLOs, TLOs and teaching- learning activities.	/	
23. Enabling Assessments are aligned with the identified CLOs and TLOs and teaching- learning activities.	/	
24. The Midterm Summative Assessment measures appropriately and validly with the identified CLOs and TLOs for the entire MIDTERM PERIOD	/	
25. The Final Summative Assessment measures appropriately and validly with the identified CLOs and TLOs for the entire FINAL PERIOD.	/	
References and Curriculum Map		
26. The References must be within the last 5 years except for canons and seminal studies.	/	
27. It must be a combination of books, eBooks, journal articles, videos, etc.	/	
28. It should follow the APA 7th edition for CLAC, CBAA, CTHM, CCJE, CEAT, COED, and CSE for CSCS.	/	
29. The syllabus is submitted with an attached mapping table (CLOs with PLOs and ILOs)	/	

NOTE: Enabling Assessments include Discussion Type (cf. SB), Forum, Analysis Paper, Reports, etc.

CONSULTATION :		

COURSE DESCRIPTION:

This course examines fundamentals of network security involved in creating and managing secure computer network environments. Both hardware and software topics are considered including authentication methods, remote access, network security architectures and devices, cryptography, forensics, and disaster recovery plans. This course adopts the online curriculum of Cybersecurity Essentials of Cisco Networking Academy Program (CNAP) @ https://www.netacad.com/.

The course will have a special provision on modality, pacing, pedagogy, assessment type, communication and feedback based on the national, regional, provincial, city, and institutional guidelines for the safety amidst disaster and pandemic. Hence, this class shall be delivered in both online and offline/module-based approach. This course is also compliant with Outcomes-Based Education (OBE) and 21st Century Learning Design (21CLD) frameworks.

COURSE LEARNING OUTCOMES:

By the end of this course, students can;

CLO1. understand the players in the cybersecurity world and the motivation of cyber criminals and cybersecurity specialists.
CLO2. analyze security attacks, symptoms, processes, and countermeasures.
CLO3. apply skills in security management, controls, protection, and mitigation technologies.

CLO4. explain how cybersecurity professionals use technologies, processes and procedures to defend all components of the network.
CLO5. create a security measure plan for the different Cybersecurity domains.
CLO6. demonstrate 21st century skills in all learning activities.

LEARNING PLAN

Learning Outcomes for Midterm Period

Course Learning Outcomes	Topic Learning Outcomes
CLO1. Understand the players in the cybersecurity world and the motivation of cyber criminals and cybersecurity specialists.	TLO1. Describe the common characteristics comprising the cybersecurity world. TLO2. Understand the three principles of information assurance and security.
CLO2. Analyze security attacks, symptoms, processes, and countermeasures.	TLO3. Differentiate the types of malwares and malicious code. TLO4. Compare the different methods used in social engineering.
CLO3. Apply skills in security management, controls, protection, and mitigation technologies.	TLO5. Explain how encryption techniques protect confidentiality. TLO6. Explain processes used to ensure integrity. TLO7. Explain the concept of high availability.
CLO6. Demonstrate 21st century skills in all learning activities.	*Collaboration, Skilled Communication, Knowledge Construction, Self-Regulation, Real-World Problem-Solving, Use of ICT (not part of topic, but integrated in assessments)*

Module No and Learning Outcome(s)	**Week**	**Teaching-Learning Activities / Assessment Strategy** **Module Activities**	**Technology Enabler**	**Onsite**	**Asynchronous**	**Summative**	**Allotted Hours**
Module 1 TLO 1 CLO 1	1-2	• Gospel reading and reflection • Syllabus uploaded • Presentation of course introduction • Course requirement details • Chapter 1: Cybersecurity – A World of Wizards, Heroes, and Criminals • Enabling assessment: Introduction to Cybersecurity	Schoolbook MS Teams	/			2
			Schoolbook MS Teams		/		2

CLO 6 Module 2 TLO 2 CLO 1 CLO 6	3 - 4	• Chapter 2: The Cybersecurity Sorcery Cube (MC Cumber Cube) • Enabling assessment: Cybersecurity sorcery cube	Schoolbook	/	/		4
Module 3 TLO 3 CLO 2 CLO 6	5 - 6	• Chapter 3: Cybersecurity Threats, Vulnerabilities, and Attacks • Enabling assessment: Cybersecurity threats, vulnerabilities and attacks	Schoolbook MS Teams MS Stream		/		4
Module 4 TLO 5 CLO 3 CLO 6	7-8	• Chapter 4: The Art of Protecting Secrets • Enabling assessment: Art protecting secrets	Schoolbook	/	/		4
	9	SUMMATIVE ASSESSMENT Explain the types of malwares, malicious code and social engineering and outline technologies, products and procedures used to protect confidentiality.	Schoolbook			/	2
			TOTAL	***6.0***	***10.0***	***2.0***	***18.0***

Learning Outcomes for Final Period

Course Learning Outcomes	Topic Learning Outcomes
CLO3. Apply skills in security management, controls, protection, and mitigation technologies.	TLO6. Explain processes used to ensure integrity. TLO7. Explain the concept of high availability.
CLO4. Explain how cybersecurity professionals use technologies, processes, and procedures to defend all components of the network.	TLO8. Explain how processes and procedures protect systems. TLO9. Explain how to implement security measures to protect network devices.
CLO5. Create a security measure plan for the different Cybersecurity domains.	TLO10. Document the security measure plan for the different Cybersecurity domains.
CLO6. Demonstrate 21st century skills in all learning activities.	*Collaboration, Skilled Communication, Knowledge Construction, Self-Regulation, Real-World Problem-Solving, Use of ICT (not part of topic, but integrated in assessments)*

GRADING SYSTEM

Midterm

Attendance/Class Participation	- 20%
Enabling Assessments	- 50%
Summative Assessments	- 30%
	100%

Finals

Attendance/Class Participation	- 20%
Enabling Assessments	- 50%
Summative Assessments	- 30%
	100%

Overall Final Grade = $\frac{\text{Midterm + Final}}{2}$

COURSE POLICIES AND REQUIREMENTS

1. Enrollment in an E-Class. This will be based on the class list provided by the Office of the University Registrar and at the portal.
2. The Traditional blended learning model shall be adopted for this course. Under the traditional blended learning, 50% of the weekly class is delivered face-to-face while the remaining is asynchronous. The total number of hours of face-to-face for this learning model ranges from 12-15 hours per semester.
3. Communication and Feedback
    a. Online Asynchronous Communication shall happen when the faculty utilizes at least one of the recommended asynchronous communications. The minimum response time for asynchronous communication is 24 hours, excluding Sundays and holidays. All communication platforms must be explicitly indicated in the syllabus. Below are the recommended asynchronous communication platforms:
        i. Messaging – at Schoolbook. Any private or confidential matters may be messaged through Schoolbook messaging feature.
        ii. Email – you may email your professor at ozapanta@dlsud.edu.ph
    b. Offline Communication is also available for all students. Text messaging subject to strict confidentiality agreement between the student and the professor may be used. This mode of communication is exclusive only for the specified type of student. Calls may be entertained within working hours (8AM to 5PM), while text messages may be responded to within 24 hours, excluding Sundays and holidays.
    c. No using foul, curse, and other bad words, whether written or verbal. No shouting. No flooding of chat and messages. No selling.

4. Intellectual Property Policy
    a. Policy and copyright infringement will not be tolerated. Any violation of such will earn students a grade of zero in the assessment.
    b. Using any illegally obtained software is strictly prohibited.

c. Students are encouraged to use their original photos, videos, and other resources. Otherwise, students can use royalty-free resources or embed the sources in their submissions to avoid copyright infringement and/or plagiarism.

5. Other Policies
    a. Attire - students must wear decent casual or smart-casual attire prescribed by the Student Handbook.
    b. Use of English is required for any presentation including the question and answer. Tagalog or Taglish can be used during consultation.

GRADUATE ATTRIBUTES (DESCRIPTORS/INSTITUTIONAL LEARNING OUTCOMES) – PROGRAM LEARNING OUTCOME MAPPING TABLE FOR BS COMPUTER SCIENCE

Program Learning Outcomes	Graduate Attributes/ Institutional Learning Outcomes				
	GA1	**GA2**	**GA3**	**GA4**	**GA5**
1. Apply concepts of computing and mathematics in different domains of computer science.				/	/
2. Identify and analyze problems and define computing requirements appropriate to their solutions.				/	/
3. Design, develop, test and evaluate various solutions using algorithms for complex computing problems that take full advantage of usability of computer resources.			/	/	/
4. Document computer-based systems by writing effective reports for risk- assessment impact.				/	/
5. Work effectively as an individual or as a member of a team during software development.			/	/	/
6. Communicate effectively with the computing community and non-computer science professionals about computing activities.				/	/
7. Recognize the legal, social, ethical and professional issues involved in the utilization of computer technology and address these issues.	/	/	/		
8. Engage in continuing professional development through performing independent or collaborative research as computing professionals.			/	/	/

NOTE: Provide a check mark on the areas in which the Graduate Attribute (Descriptors/Institutional Learning Outcome) is hit by the program learning outcome (PLO). Kindly refer to the descriptors (institutional learning outcomes) to clearly understand what each attribute refers to or expect from its graduates.

GRADUATES ATTRIBUTES AND INSTITUTIONAL LEARNING OUTCOMES (ILOs)

Graduate Attribute (GA)	Descriptors (Institutional Learning Outcome)[1]
1. God-centered	a) Creates an environment where the experience of God is lived and shared b) Practices honesty, fairness, truth and integrity in all aspects of life (personal and professional lives) c) Observes and maintains ethical standards in dealing with the different stakeholders d) Integrates Christian perspectives and values in all undertakings e) Manifests humility and respect in relating with other people
2. Patriotic	a) Manifests a deep sense of nationalism by integrating history, arts, and culture in their daily lives b) Participates responsibly and collaboratively in the discussion and resolution of issues within local, national, and international contexts c) Engages actively in political, social, economic, and cultural transformation for nation building d) Brings pride and honor to the community and the country e) Patronizes locally produced products and promotes them globally
3. Socially Responsive	a) Demonstrates concern and compassion for the plight of the vulnerable and marginalized sectors of society by participating meaningfully in the process of social transformation b) Engages in ecological advocacies as responsible stewards of God's creation c) Continuously works in solidarity with people and institutions to effect liberating action d) Brings forth awareness and deeper understanding of social realities e) Manifests spirit of volunteerism through social actions that improve communities
4. Globally Competitive	a) Takes progressive responsibility for own learning and development Promotes b) critical and creative thinking, self-knowledge and self-mastery c) Is committed to rise above mediocrity d) Shows dedication, commitment and love for work to attain exceptional results e) Exhibits innovativeness and creativity in various contexts

[1] *Approved in July 2017 during a multi-sectoral committee specifically convened for the purpose of coming up with descriptions for the graduate attributes.*
